

Accountancy Practice Consultant – Audit Focussed

2020 Innovation Training Ltd – Birmingham B37 / National / Home-working

Accountancy Practice Consultants / Experts required for professional services firm based near Birmingham International Train Station.

About Us

2020 Innovation provides professional training, compliance and growth strategies for accountancy firms and their teams. By proudly supporting our 1,000+ member firms with technical training, practice management, marketing content and much more we help firms grow their client base, expand their service offerings and prosper in the changing environment.

You will be joining 2020 Innovation at an exciting time of rapid growth in both our core membership offering and expanding additional services. 2020 Innovation is a friendly place to work with a great team culture. The team have recently crystallised the core values which make us tick and these are:

- *You are Valued*
- *Be Agile*
- *Have Integrity*
- *Inspiring Community*

About the Role / About You

To help our member firms grow and succeed, we want to work with outstanding technical talent (on part-time, full-time, flexible, employed and/or contract bases). Bringing the right people and skill mixes into our high-performing team is more important to us than a set job description or approach. We want to align your personal career ambitions with our growth strategy and create a role that is personal and unique to you.

At the moment, we are particularly keen to talk to enthusiastic individuals who are currently in an **Audit Manager role**, or equivalent, with a **strong technical background and a keen interest in Auditing and Accounting Standards**. Experience in the application of analytics and/or the implementation and use of cloud-based audit systems would be an advantage.

The role we would like to build with you would include **undertaking cold audit file reviews** for our members, remotely and onsite at accountancy firms across the country. Experience in undertaking such reviews is desirable but not essential as full training will be provided.

Depending on what makes you tick, the role could also include:

- Undertaking file reviews of other types, including engagement quality reviews, practice assurance reviews, anti-money laundering reviews and more;
- Consulting on the implementation of ISQMs;
- Writing and presenting CPD webinars, including on emerging topics;
- Writing and presenting practical courses for trainees or general refreshers;
- Presenting at large conferences and roadshows;
- Assisting members with technical queries,
- Writing marketing materials for accountants on general business topics; and
- Writing blogs, articles and help-sheets of general interest to the accountancy profession.

In all cases, full training and support would be provided. This includes participation in our 2020 Innovation Talent Academy. We are committed to helping you develop your career as we work together to grow 2020 Innovation.

If it sounds like 2020 Innovation could be an exciting next step for you, please email a copy of your CV and a short cover letter to careers@the2020group.com. Please also get in touch if you'd like an informal conversation with our Technical Director, Sharon Cooke, before submitting a CV. We're always happy to talk.
